

### ASSIGNMENT - 3

Date	07 October2022
Name	Sandhiya S
Team ID	PNT2022TMID13786
Roll No	622119104086

#### 1. Create a bucket in cloud Account:

The screenshot displays the IBM Cloud Object Storage console interface. The left sidebar shows the navigation menu with options like Cloud Object Storage, Storage instances, Buckets, Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area shows the 'bucket123' page under the 'Cloud Object Storage-5o' instance. A green notification box in the top right corner states: 'A bucket created successfully! The bucket bucket123 has been created and is now available to add objects.' Below the notification, there's a section for 'Objects' with a search bar and a table header: 'Object name', 'Archived', 'Size', and 'Last modified'. The table is currently empty, and a message below it says: 'Drag and drop files (objects) to upload. An object is your data in fixed form.' and 'Drag and drop files (objects) here or click to upload'. The bottom of the screen shows a Windows taskbar with various application icons and a system tray indicating the time as 9:22 AM on 10/6/2022.

## Buckets

Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.
